A revival meeting has been going on for some days at the Baptist church, services being held day and night. Rev. Brown of Kennett is doing the exhorting, assisted by Rev. Hunt of Hastings, Florida, also the pastor, Rev. W. C. Scott. Some able sermons have been preached and some very interesting services held, and it both unfortunate and regrettable that more of the people of Hayti do not attend these meetings. Nothing can be so important to the town as the upbuilding of churches, and the people here are far too indifferent to this crying need.

Trying to Fool the People With a Jesse James Tariff Law. (Continued From Page 1)

lawmakers at Washington are trying to do.

Here is what the Democratic minority said about the bill and its effect on the people:

"The toll the American people must pay under the operation of this bill is stupendous. It will reach into the billions. Foodstuffs, clothing, practically all the very essentials and necessities of life bear the highest known duties, and all of this whole people are demanding reductions in the cost of production and cost of living and capital is deflating wages.

"Experts of the Government estimate the increased duties levied on meats, cereals, potatoes and beans are effective in increasing prices, these duties alone will amount to an increase of \$1,250,000,000 in the cost of living.

"That it will create a tariff wall behind which the cost of living may be boosted high again and the public gouged almost at will for the private benefit of the wool, cotton, silk, glove, chinaware, cutlery, aluminum and other special interests, who dictated the bill.

"That the farmers will pay fully five times as much more for the manufactured things they need than they will get by way of concessions under the bill, for many of the duties thrown to them as a sop, such as a tax on wheat, corn and other grains, will be imperative, owing to America's domination of world markets for these commodities.

"That industries relying upon foreign markets for the sale of their surplus products will find European consumers unwilling to buy where they cannot sell, with the result that these industries will be forced to curtail production and consequently reduce the number of employees.

"That the ensuing slump in export and import trade will not only end in more unhealthy economic conditions than now exist, but will further hamper Europe's ability to pay off the \$18,000,000,000 debt she owes, and prevent her from regaining her normal share of the gold now held in this country, which would aid in stabilizing her demoralized currencies."

The new tariff bill, the New York Evening Post (Ind.) has said, "makes the free breakfast table a mockery," and in this paper Mr. Will O. Scroggs, the economist, recently recounted "the short and simple but somewhat intimate annals of a morning hour in the life of a plain middle class American consumer," to "see how the tariff penetrates into the inner temple of his existence." To quote from this story as amended by Mr. Scroggs to the final form of the Senate bill:

"His day begins when he is aroused by an alarm clock, and the new tariff bill raises the duty on this article 67 per cent. His first act is to throw off the bed covering, on which the duty has increased 60 per cent. He jumps from his bed, on which the duty is advanced 133 per cent, and then dons a summer bath robe with the duty up 60 per cent, and slippers, with the duty increased 33 per cent.

"He walks over a Brussels carpet (duty up 100 per cent) to close the window the duty on the pane of which has been raised 33 per cent, and adjusts the shade (duty up 30 per cent,) and curtains (up 50 per cent.) Then he enters the bathroom, stands before a mirror, on which the duty has been raised 100 per cent, sets out his shaving-stick, subject to an increase in duty of 67 per cent, his shaving brush (duty up 30 per cent) and razor (up 100 per cent) and begins his tonsorial operations. This over, he devotes his attention to the bath tub, on which the duty has been raised 100 per cent. (Towels with the duty up 60 per cent, soap (up 67 per cent,) tooth brush and hair brush (up 30 per cent each) and comb (up 67 per cent) are next in demand.

"As our consumer dresses it may be noticed that the new bill increases the duty on his underwear 33 per cent, on his hose, 15 per cent, on his shirt and collar, 20 per cent or more on his necktie, and 60 per cent on his suit of clothes.

"At the breakfast table our consumer spreads a napkin (duty up 15 per cent) on his knees and turns on the current for his electric toaster, on which the duty has been advanced 160 per cent. He drinks water from a glass on which the duty is 15 per cent higher, and begins his breakfast with an apple (duty up 200 per cent) baked with sugar (duty up 84 per cent) in an aluminum dish (up 150 per cent) on a cast iron stove (duty up 100 per cent).

"The duty is also advanced 27

per cent on his chinware, 20 per cent on his table silver, 200 per cent on his oatmeal and 225 per cent on his butter. The cream for his coffee has been removed from the free list and subjected to a duty of 22 1/2 cents a gallon and his eggs also have been taken from the free list and made dutiable at 8 cents per dozen. The salt for his eggs likewise comes off the free list, and so does his bacon and the flour that goes into his bread. Even the duty on the salt shaker gets a boost of 45 per cent.

"The only things on his table that have not been subjected to a higher tariff duty are his coffee and his drinking water."
